

HEAS Workshop: New Methodologies and Perspectives in Palaeolithic Archaeofauna

Date: 25.09.2026

Place: University Biology Building, SR 5.1

Schedule: from 9:00 to 18:00

9:00-9:30: Marjolein Bosch (University of Vienna) and Pere Gelabert (University of Vienna) welcome participants and introduce the session.

9:30-10:10: Anna Wagner (University of Reading): The potential of palaeoproteomics to enhance Palaeolithic faunal studies

10:10-10:50 Olivia Rivero (University of Salamanca): Insights into the European Palaeolithic Art from interdisciplinary disciplines.

10:50-11:30 Coffee Break

11:30-12:10 Shevan Wilkin (University of Basel): Paleoproteins to recover past lifestyle and environments.

12:10-12:50 Alex Pryor (University of Exeter): Strontium, Oxygen, and Carbon Isotopic Constraints on Woolly Mammoth Mobility.

13-15 Lunch Break and Lab Tour

15:00-15:50 Ana B. Marín Arroyo (University of Cantabria): PrehGastro: from the Prehistory to the plate

15:50-16:30: Open debate

16:30-17:30: Practical case of Integration strategies for multidisciplinary science.

17:30: Marjolein Bosch (Archeofauna) and Pere Gelabert (sedaDNA) deliver the final remarks and conclusions of the session.
